

适用广、低张力、低震动
Wide applicability, low tension, low vibration

ZJ430D 系列/series

高速电子套结机 HIGH SPEED COMPUTERIZED BARTACKING MACHINE

采用了电脑直接驱动方式，启动/停车反应迅速，高刚性的机架，实现了低震动、低噪音。装备了伺服控制的送布装置、有最佳同步和行程的针杆挑线杆装置，实现了缝制的低张力。采用无供油技术，消除了缝料被污染的烦恼。内置多种套结型式，可用于男装/女装、牛仔布、针织物、女式内衣的各种套结加固缝。

The computer direct drive mode is adopted. The starting/stopping response is fast and the rigidity of the frame is high. The low vibration and noise are realized. Servo-controlled feeding device and needle rod take-up rod device with optimal synchronization and stroke are equipped to realize low tension of sewing. The trouble of sewing material being polluted is eliminated by adopting non-oil supply technology. It can be used for menswear/women's wear, jeans, knitted fabrics and underwear.

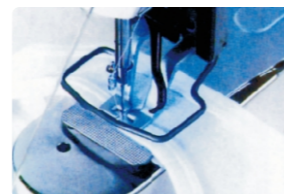

兜脚加固
Drop foot reinforced

牛仔加固
Cowboy reinforcement

可选配Option
触摸屏 Touch screen

松紧带加固
Elastic reinforcement
